I believe that we serve 100% of the village.

Subject: Population served by water utility

Michael / Tim,

The 2009 population estimate for the Village of Hales Corners is 7,646. How many (or what percent) would you say are in the areas of the Village served by the water utility, Milwaukee Water Works?

Thanks!

There is a mix of water supply. Estimates for residential users: 1222 on municipal water (MWW), 213 on community well trusts, and 956 on private individual wells. About 95% of commercial, multi-family, institutional and industrial users are on muni water.
